

KEL-FG flanged cable entries

Pat. pend.

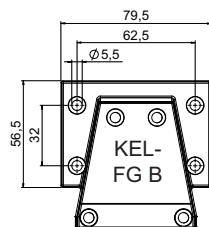

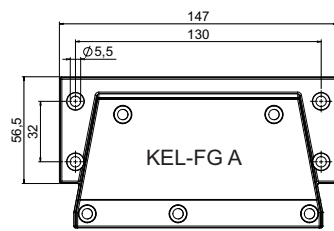

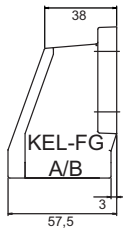

KEL-FG - cable entry system for installation, sealing and strain relief of pre-fabricated cables and conduits.

Advantages:

- Install pre-manufactured cables at an angle of 90° to the cabinet
- Cables are guided in orderly manner to the place of entry
- Mechanical protection of cables directly at the place of entry
- Protection against water spray
- Also convenient for the insertion of conduits
- High packing density
- KEL-FG A can be snapped onto KEL-SNAP – very quick assembly and disassembly (page 13)

 The matching inserts can be found on pages 18 and 19.

KEL-FG flanged cable entries

Specification:

Material: Polyamide
UL-94 V0, self-extinguishing,
halogen-free, silicone-free,
IP54 with gasket and correct
selection of the cable inserts
