

MINITIMER

Time Relay With Operate Delay

RK 7813, RK 7814, RK 7815, RK 7816

0257876

Product Description

The timers of the RK series in compact stepped front enclosures fulfill all the demands to modern time control devices. With only a few variants this relay series covers all common timing functions, time ranges and voltage models. The single function modules are on delay range as well as fleeting on make or flasher timers. Besides the standard 1 c/o contact also a second c/o contact or an instantaneous c/o contact is available as option. Therefore these timers are suitable to realize most time depending controls in industry and building automation. As supplement also a multifunction timer with 8 functions is available in this series.
